Single Skid

Tow Ready  Solar 4 kWp 

Scan for full info, videos and technical specifications.

Overview

The Single Skid system consists of solar panels, batteries, inverters and a backup diesel generator.

Primarily used for smaller power needs (up to 20 kVa) or where deployable power is of the highest priority.

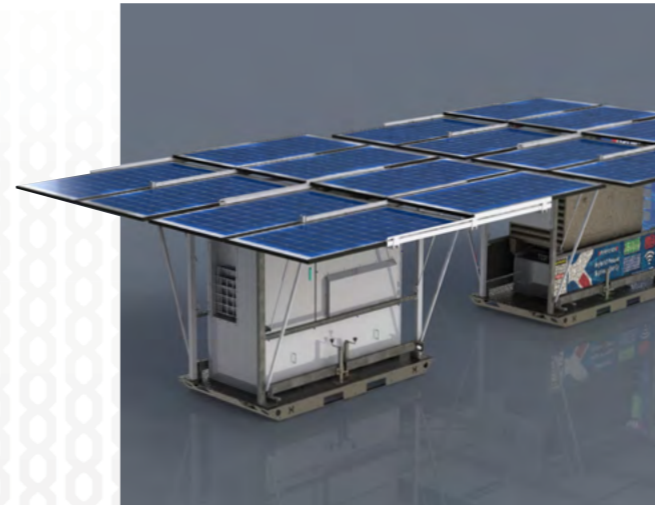

Model Variants

Three versions available. HPS 10, HPS 15 and HPS 20.

Model	HPS 15	HPS 20
Generator	15 kVa	20 kVa
Fuel Tank	400 ltr	400 ltr
Battery	20 kW h	30 kW h
Inverter	15 kVA (1P)	20 kVA (1P or 3P)
Solar	4 kWp	4 kWp
Add-On Solar	✓	✓

Double Skid

Rapid Install  Solar 8 kWp 

Overview

The Double Skid system consists of solar panels, batteries, inverters and a backup diesel generator. Primarily used for large power needs and where reliable, long-term power is of the highest priority.

Model	HPS 45
Generator	44 kVa
Fuel Tank	400 ltr
Battery	60 kW h
Inverter	45 kVA (3P)
Solar	8 kWp
Add-On Solar	✓

HPS60

Overview

Our largest and most sophisticated model, the HPS60 includes solar panels, batteries, inverters and a backup diesel generator. This unit is fully enclosed in a 20ft container and includes advanced temperature management to handle heavy power demands in any environment.

Model	HPS 60
Generator	60 kVa
Fuel Tank	400 ltr
Battery	90 kW h
Inverter	60 kVA (3P)
Solar	5 kWp
Add-On Solar	✓

Additional Solar Option

Container Add-On

Expandable System  5 kWp Per Module 

Overview

Take advantage of the vertical space on-site. Container Solar clips onto the top of containers and plugs into the existing HPS System to give extended solar capabilities.

Model	Add-On Solar
Solar	5 kWp

Model Variants

One version available. 5 kWp Per Module.

Keep Powering On

Providing powerful, reliable and clean energy.

There is a better way to power construction sites, temporary residences and remote locations; or anywhere that has a reliance on diesel generator power.

Preferences are shifting to cleaner energy sources and **Makinex** has the widest range of cutting-edge, sustainable hybrid power systems available.

Once thought of as slow to install and weak in power output, technology has advanced and now is the time to take another look.

Makinex Renewables is at the forefront of hybrid power technology and we are determined to change the way you think about and use renewable power.
