# About Makinex

Makinex is an innovative Australian company specializing in the design of tools and equipment for the construction, flooring, industrial and landscaping industries. Founded in 2004 by **Rory Kennard and Paul Weaver**, Makinex has been at the forefront of developing cutting-edge solutions to enhance productivity and efficiency on job sites.

Our name, Makinex, is an abbreviation of **MAK**ing **IN**efficiencies **EX**tinct, a guiding vision from inception that drives our team to identify business constraints, develop tools to simplify complex tasks and enhance operational efficiency for professionals worldwide.

Makinex is renowned for its award-winning solutions with products across power, surface preparation and cleaning, and lifting products. We have offices in Australia and the United States of America with a Hire/Rental and Reseller distribution network across the globe.

Most recently, Makinex has expanded into renewable energy with the establishment of Makinex Renewables and their range of **Hybrid Power Systems**, off-grid solutions aimed to save fuel, save CO2 and run continuously 24/7.

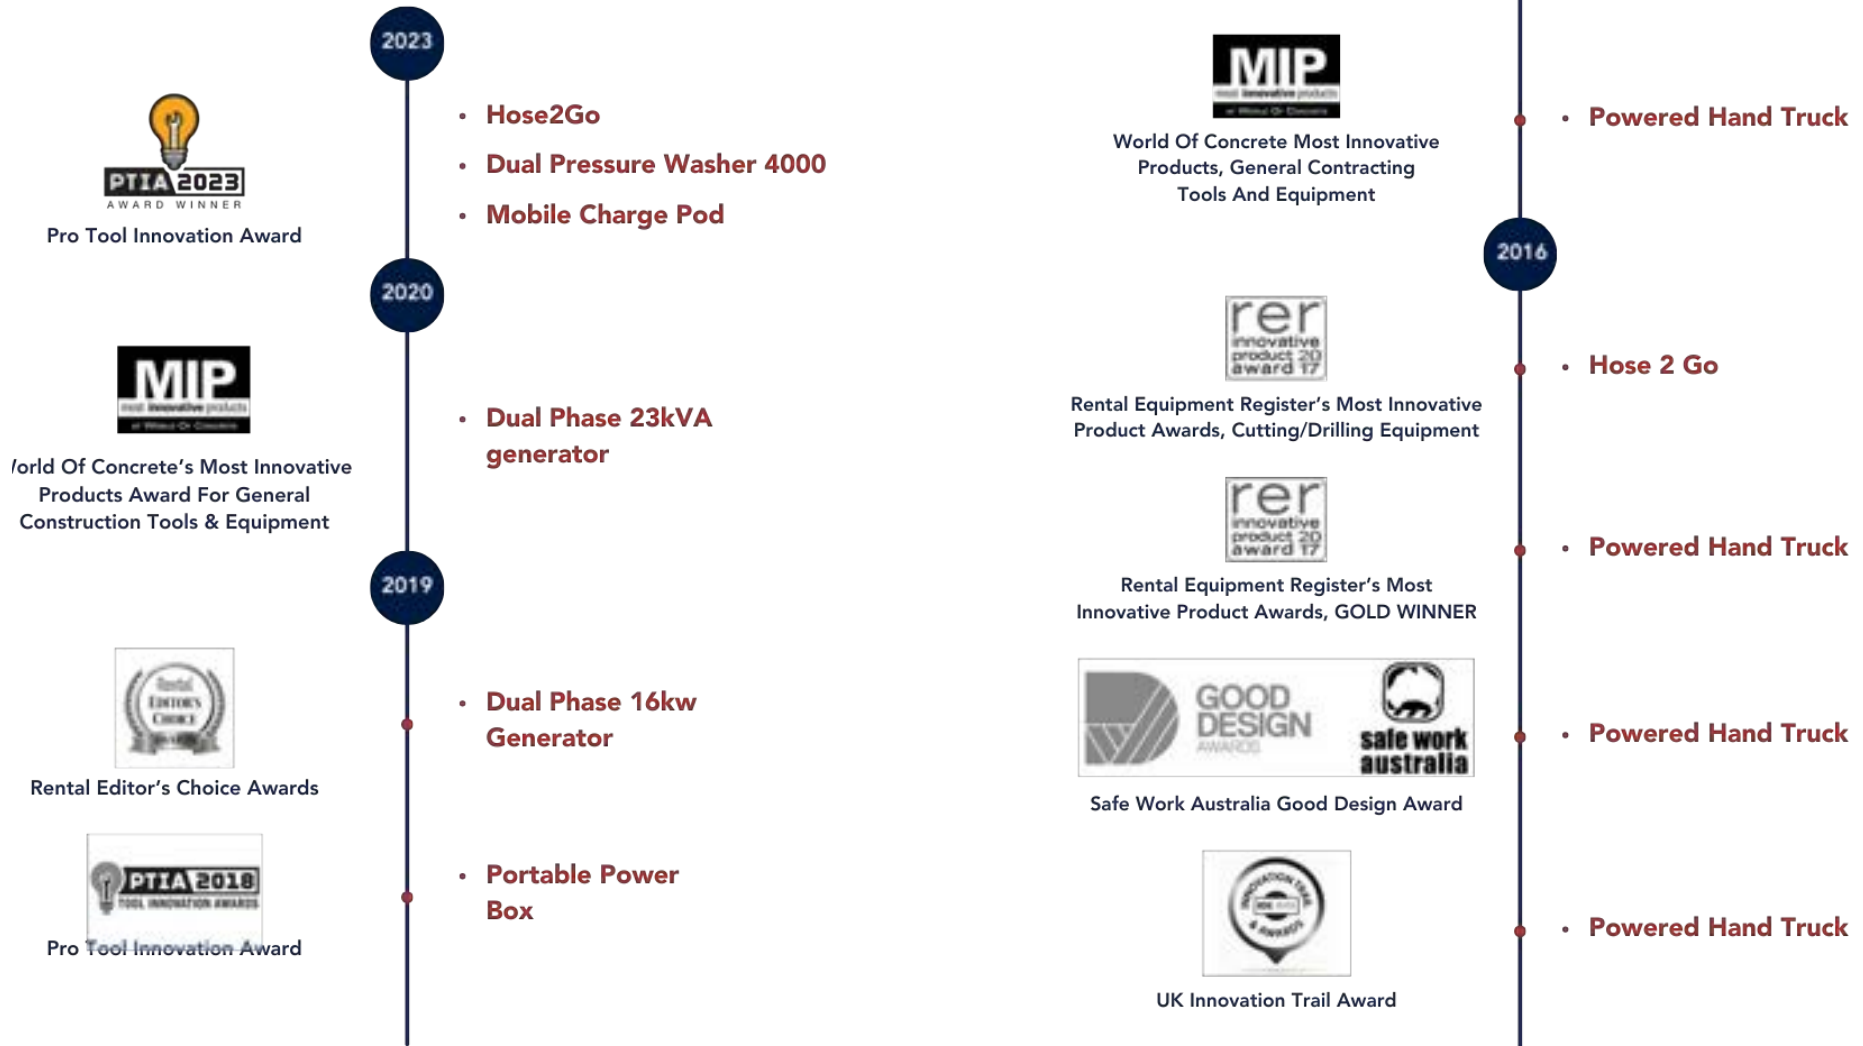

# Our Founders

Makinex was founded by two visionaries, Rory Kennard and Paul Weaver. Their dedication to finding solutions to common challenges in the construction world has been the driving force behind the company's success. Both, with significant years and experience prior to Makinex in Hire and Construction related roles, found common ground when developing Makinex's very first product in Rorys' garage, The Makinex Vinyl Floor Stripper.

# Our Recent Awards

Makinex has been recognized for its commitment to innovation and excellence in the industry. Some of our notable awards include:

# Our New Products

# Portable Power Box (PPB)

The future of portable power. The PPB is a quiet and clean power solution built with safety in mind. Experience noise-free, fuel-free, emissions-free power, extremely suitable for indoor sand confined spaces. This versatile device offers up to 15kWh of battery capacity, empowering operators across various industries and applications. It charges via 240V mains or connected solar photovoltaic (PV) and is equipped with 3x15A outlets, 2x5V USB-A outlets, RCD protection, and a battery management display.

---

With thermal overload protection, a spring-actuated brake, and a durable frame, manoeuvring and storage is effortless. This IP44-rated unit provides weather resistance, ensuring reliability and durability for a long operational experience. Charge overnight and enjoy an 8kW output wherever, or whenever you need quiet & emission free power.

# Mixing Station (MS150)

Redefining flooring mixing, the MS150 Mixing Station is a portable powerhouse, blending up to 6 bags in 7 minutes while ensuring precise pouring and reduced waste.

---

Save time and labour while relishing an ergonomic lightweight design that curbs operator fatigue and injury. With a removable vacuum attachment for spills and dust suppression, achieve meticulous mixing and pouring within the single unit.

# Concrete Grinder and Trolley (CG2050)

Introducing the Makinex Concrete Grinder and Trolley. This robust tool is your go-to for grinding, polishing, and finishing concrete surfaces, offering exceptional adaptability. Its ergonomic lightweight frame excels in leveling floors and edge grinding, delivering 2-in-1 capabilities.

---

The removable magnetic shroud ensures flawless edge grinding, while multi-directional frame casters enhance manoeuvrability. Experience varying speeds and a trigger lock, significantly reducing fatigue and the risk of manual handling injuries. CE certified and equipped with power-off and overloading protections, it's a reliable choice.

# Our Products and Product Ranges

Makinex offers a wide range of products to cater to various needs in the construction and industrial sectors

Award Winning Designs

Increase Productivity

Exceptional Support

# Power Solutions

**Generators:** Makinex generators provide reliable power on demand, ensuring uninterrupted operations. From 9kw to 32kw, Makinex generators are the worlds smallest, dual phase generators a mere fraction of the size of comparable towable and SKID generators.

---

# Surface Cleaning

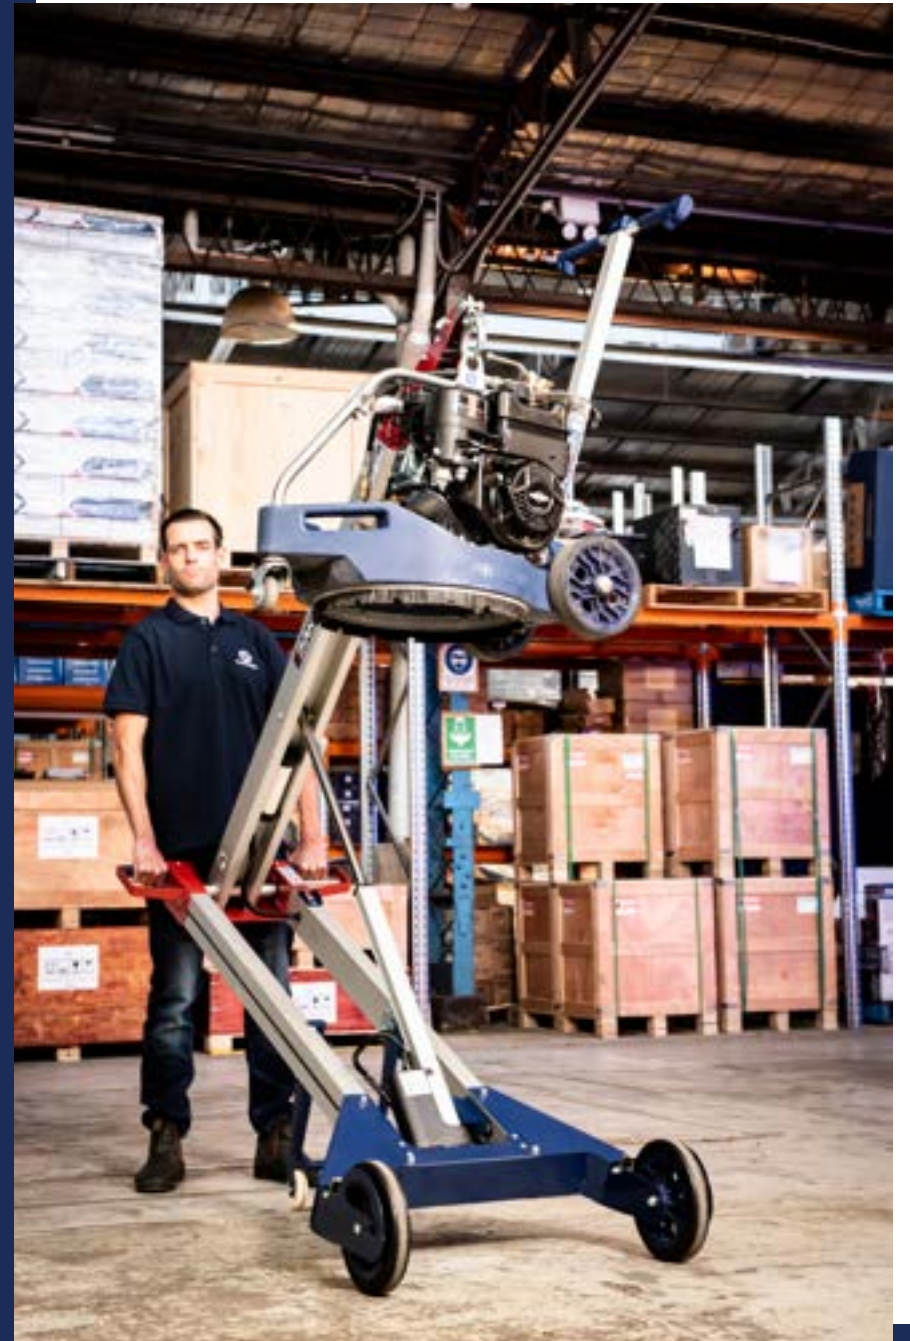

**Dual Pressure Cleaner, and Dual Pressure Washer:** Our cleaning products are engineered to maintain clean and safe work environments. Robust 2in1 solutions, these remarkable machines combine a pressure wand and rotary cleaner, offering adjustable pressure control from up to 4000 psi.

# Lifting and Loading

**Powered Hand Truck (PHT):** Our patented designed lifting and loading solutions are made to make heavy lifting easier and safer. Our award-winning PHT easily accommodates a solo lift-up bulky object up to 309lbs.

# Surface Preparation

**Hose2Go, Mixing Stations, Jackhammer Trolley, and Floor Stripper:** Makinex offers a range of tools to prepare surfaces for construction or maintenance work. Our surface preparation products reduce stress, time, and injury for users and provide safeguards across dust and airborne particles
