HGE1000 HIGH Bulk movement made easy.

The 100% electric dumper runs up to two full working days while being able to unload at 125 cm. height

The **HG E1000 High Tip** is an electrical, high-quality dumper with an added benefit – the ability to unload directly over the rim and into containers and trailers. It is user-friendly and provides the same outstanding performance as the combustion engine alternatives.

The high-tip function is particularly popular for work sites in tight spaces, such as cities, among rental companies, landscapers, contractors, and demolition companies. The HG dumper has total safety measures that ensure the highest safety standards for users while being able to load up to 1000 kg.

Loads 1000 kg. Designed for tight spaces Unloads up to 125 cm. height
